

## Poster Presentation

No.	Presenter	Country	Title
P_1-1	Masaki Fujiwara	Japan	A randomized controlled trial of a case management approach to encourage participation in colorectal cancer screening for people with schizophrenia in psychiatric outpatient clinics: J-SUPPORT 1901 (ACCESS) study
P_1-2	Annie Alexander	India	"When the hair was falling, I felt very shameful..."
P_1-3	Devika Ruth Jutagir	United States of America	Qualitative analysis of disparities in access to breast cancer immunotherapy
P_2-1	Yenmin Huang	Taiwan	Too effective to be prepared, we need more preparation in an era of immunotherapy- A case report
P_2-2	Fang Li	China	Factors influencing the implementation of advance care planning in China
P_3-1	Tu Ching-Ying	Taiwan	Family resilience of adolescents with cancer and their families in Asian cultures: A systematic review
P_3-2	Karine Bilodeau	Canada	Dialogue with Millennials Diagnosed with Cancer, Community Representatives and Researchers: New Avenues to Rally Everyone
P_3-3	Marissa Maheu	Canada	Post-Traumatic Growth and Uncertainty about the Future in Young Adults with Cancer: A YACPRIME Study
P_3-4	Masako Okamura	Japan	Prevalence and associated factors of psychological distress among survivors of adolescent and young adult cancer in Japan
P_3-5	Akiko Kimata	Japan	Development of a conceptual framework for assessing websites' effectiveness for adolescent and young adult cancer survivors in Japan: researchers' perspectives, using interpretive content analysis
P_3-6	Elizabeth Siak	Singapore	Patient experiences in an art-making support group: a qualitative study
P_3-7	Ariane Levesque	Canada	Cancer-related fatigue in childhood cancer survivors: A scoping review on contributing domains of fatigue and whether they are addressed by non-pharmacological interventions
P_3-8	Savita Sachin Goswami	India	Evaluation of adolescents and young adults (AYA) with sarcoma referred to Psycho-Oncology service in a resource-limited setting
P_3-10	RACHEL KANSIIME	Uganda	The role of intrapsychic factors and coping skills on the psychological wellbeing of cancer caregivers;a theoretical discussion
P_3-11	Jonathan Avery	Canada	Music Meet Up: Preliminary Results of a Novel Music Therapy Group Intervention for Adolescent and Young Adults (AYA) with Cancer
P_3-12	Ali El-akhras	Canada	Supportive care of young men with cancer during their treatment: a gender perspective
P_3-13	Madison F Vani	Canada	A scoping review of body image among adolescents and young adults living with and beyond cancer
P_4-1	Alberto Bagnulo	Italy	End of life care in cancer patients: too much chemotherapy and too little communication-therapy? A cohort study in Northern Italy
P_5-1	Leah Tracey	Canada	The Sibling Support Project: Educational Tools to Support Siblings of Children with Brain Tumours
P_5-2	Yuko Yanai	Japan	Characteristics and outcomes of a psychological care system in a pediatric oncology department
P_5-3	ALISA KAMALYAN	Armenia	Effectiveness of the "Patient dinosaur " method for reducing procedural anxiety of children with cancer
P_5-4	Ryoko Michinobu	Japan	A Shared Promise: Children's participation in shared medical care decisions in a pediatric cancer ward in Japan
P_5-5	Tatiana Riabova	Russia	Doctor-reported patients' psychological needs and their associations with emotional distress and socio-demographic factors in Russian adolescents with oncological/hematological diseases
P_5-6	Jung Lee	Korea	The association between quality of life in children with cancer and caregivers' depression in palliative care
P_5-7	YEN GAN Chiou	Taiwan	Explore the mental journey of facing the disease and challenge for Parents with Cancer Children in Taiwan
P_5-8	Jin-Shei Lai	United States of America	Symptom Clusters of Children with Brain Tumors
P_6-1	Ingrid Santana Andrade	Brazil	The interpersonal improvement between doctors and family members from the psychological intervention at the Unimed Hospital of Caruaru.
P_6-2	Anne-Laure Sedda	France	Communication skills training for French doctors : A clinical experience
P_6-4	Ozan Bahcivan	Turkey	Perception of Cancer as a Word: A Descriptive Study of Oncology Patients' Emotions toward the Word "Cancer"
P_6-5	Shweta Kiran Chawak	India	Are they asking questions? A feasibility study testing a question prompt list developed for Indian cancer patients undergoing radiation therapy and their primary family carer
P_6-6	Fumika Horinuki	Japan	Association between the evaluation of physicians' communication by patients with hematological malignancy and by physicians
P_8-2	Stephanie Christodoulidou	Cyprus	The case of Cyprus: the psychosocial needs of women living with Metastatic Breast Cancer
P_8-3	Janelle V Levesque	Australia	A qualitative investigation of factors contributing to distress in younger men caring for women with ovarian cancer
P_8-4	Agni Tavares	Brazil	Assessment of distress and coping with adult and elderly women in cancer treatment: comparative study of a Brazilian sample
P_9-1	Itsuro Iida	Japan	Delirium affects suicide-related behaviors in advanced cancer patients: 2 case reports.
P_9-2	Tokuzo Matsui	Japan	A case of buccal mucosal cancer patient with delirium who successfully recovered with Asenapine sublingual tablet.

## Poster Presentation

No.	Presenter	Country	Title
P_9-3	Ryoichi Sadahiro	Japan	Interleukin-6 patterns as potential predictor of postoperative delirium and inflammation related delirium symptoms -a prospective observational study in cancer patients-
P_11-2	Yu Ohkura	Japan	Relationship between psychological distress and health related quality of life of each points of the treatment of esophageal cancer
P_11-3	Mutiara Tioni Asprilia	Indonesia	Depression Prevention Program for Adolescents with Thalassemia Major: Based on The Need Assessment of Long-Term Care Patients within West Java Area, Indonesia
P_11-4	Li-Chuan Tsai	Taiwan	explore related factors and predictors of depression in the elderly
P_11-5	Eida Maria Castro	Puerto Rico	Depression and Markers of Breast Cancer Tumor Progression: The Role of Exposure to Social-Environmental Adversity
P_11-6	Li Ting Chen	Taiwan	Depression in the transition period among colorectal cancer survival: A moderated mediation model of disposition mindfulness and cancer meaning.
P_11-7	Izumi Mishiro	Japan	Risk of Major Depressive Disorder in Working-age Cancer Patients in Japan: An Epidemiological Study Using Administrative Claims Database
P_12-1	Zeina Ramadan	Lebanon	Distress Screening in Palliative Care: The Evolution of Specialist Mental Health Support, and the Care Coordinaton with Generalist Psychosocial Support
P_12-3	Katrin Rebekka Scharpf	Germany	Correspondence between subjective distress and clinician rating in prostate and head-and-neck-cancer patients
P_12-4	Corina Lupau	Romania	Emotional distress in breast cancer A comparative research according to the type of surgery
P_12-5	Chih-Hsun Wu	Taiwan	The Development and Psychometric Properties of the Pre-Surgical Cancer Worry Scale (PCWS): A Clinical Study
